

## Finding music that is legal to use

**Aim** To find music that can be used legally by the participants for their creative projects

**Duration** -

**Number of participants** any

**Difficulty** medium

**Conditions** Internet access, headphones so the participants do not disturb each other

**Material** -

### **Preparation**

-

### **Description**

Each participant looks for a piece of music he/she really likes very much and which he/she could also use in one of his/her own YouTube videos. This piece of music was written or performed by this person or it has got the appropriate licence, such as Creative Commons or Public Domain.

The participants present the music to each other and inform each other if they find other good sources.  
Starting point of the internet search: <http://search.creativecommons.org/>
